NATIONAL INSTITUTE OF HIGHER EDUCATION
RESEARCH SCIENCE AND TECHNOLOGY
INCORPORATED BY ACT OF PARLIAMENT ACT NO. 20 OF 1984

FOR IMMEDIATE RELEASE

October 9th 2026

Dear Editor / Head of Department

NIHERST's Teach ME Students' Innovation competition challenges young innovators to design solutions for the world of tomorrow

TRINIDAD AND TOBAGO, October 10th, 2026 — Young people with ideas for a better future are invited to turn their creativity into action through the Teach ME 2026 National Students' Innovation Competition, hosted by the National Institute of Higher Education, Research, Science and Technology (NIHERST). The competition challenges students to design technology-based solutions under the theme "Future Ready: Designing Solutions for the World of Tomorrow."

Registration deadline has been extended to Friday 30th October, 2026, and eligible students are encouraged to apply now.

The competition is open to nationals of Trinidad and Tobago in Standards 3–5 and Forms 1–5. Students may enter individually or in teams of up to five eligible members. Primary school participants will use *MakeCode Arcade*, while secondary school participants will use *Unity*, with tutorial resources available to support project development.

Participants are encouraged to identify a problem or opportunity and explore how STEM knowledge, emerging technologies and innovation could provide a solution. The competition offers students an opportunity to strengthen their creativity, critical thinking, collaboration and problem-solving skills while developing practical digital skills.

Through its Teach ME programme, NIHERST promotes STEM learning and helps young people build the capabilities needed to participate in an increasingly technology-driven world. The National Students' Innovation Competition brings these objectives to life by encouraging students to move beyond ideas and develop solutions with the potential to make a difference.

NIHERST encourages parents, teachers, school administrators and youth organizations to share this opportunity with eligible students before the registration deadline.

Registration Details

Eligibility: Nationals of Trinidad and Tobago in Standards 3–5 or Forms 1–5
Entry: Individual or team of up to five eligible students
Deadline: October 30, 2026
Application & Information: Visit niherst.gov.tt | Email: teachme@niherst.gov.tt

About NIHERST

The National Institute of Higher Education, Research, Science and Technology (NIHERST) is a statutory body committed to promoting the development of science, technology and higher education in Trinidad and Tobago, while supporting innovation, creativity and entrepreneurship across the national community.

About Teach ME National Students' Innovation Competition

The National Students' Innovation Competition is designed to identify, recognize, and reward student innovators who demonstrate excellence in applying scientific knowledge and technological innovation to address real-world challenges. This national initiative seeks to cultivate a culture of problem-solving, creativity, and innovation among students, while strengthening the link between education and community development.

Participants will be invited to identify a problem or opportunity and develop an innovative solution that responds to the evolving needs of society, in alignment with the overarching theme. Students are encouraged to think beyond existing solutions, and demonstrate how STEM knowledge, emerging technologies, and 21st-century skills can be applied to address challenges, explore opportunities, and design solutions for a better future.

Through this competition, the programme seeks to inspire a passion for STEM education, empower youth participation in nation-building, and drive the creation of innovative solutions that advance sustainable development and enhance quality of life.
