SHELL CYBER CAMPS 2022 PARENT/GUARDIAN GUIDELINES

LOGGING IN/LOGGING OUT

All campers are required to log in using the provided link to the session for which they are registered at least 10minutes (10) minutes before the session is scheduled to begin. It is important to log in to the session early to troubleshoot any technical difficulties e.g. configuring audio and video settings.

Please enter a screen name/username that is the full name of the camper as stated on the submitted registration form. Campers may be placed in a virtual waiting room before entering the online camp and using their name aids in confirming their identity before providing access.

Campers are encouraged to have their cameras on for the duration of camp sessions. Microphones should be muted at all times except when the camper is given permission to unmute by the facilitator.

Before logging in to the session we ask parents/guardians to survey the physical space in which the camper will be seated for the virtual camp. Please be mindful of camera placement e.g. away from open windows, passageways and doorways as well as lighting and objects in the background. Additionally, it is in your best interest to inform relatives and guests that your child will be participating in an online session and to refrain from disturbing the camper.

At the end of the virtual camp session all campers are required to safely log out of the session or this will be done by the NIHERST facilitator.
